

# ABSTRACT CONCEPT PHOTO MONTAGE

## Project description and requirements

- We will be creating an artwork that represents the theme “\_\_\_\_\_ Is.”  
You are creating a topic, and representing it in a visual way. Examples include “beauty is,” “pride is,” “love is,” and “diversity is.”
- The final project size should be up to 11” x 17”.
- Must be created in Photoshop.

**It is suggested that all artwork be your own, original work for this project.**

**You are, however, allowed to use “stock” images from stock photo websites such as morgue file or getty images. No images with copyright.**

### **Your project should include the following:**

1. Text that incorporates the words \_\_\_\_\_ is, as well as an original quote about this topic
2. A collage composed of **at least** 10 images. These images must somehow represent the theme.
3. This design could be a single page layout or multipage.
4. All images **MUST** have “refined edges” and can be “feathered” if desired.
5. The following assignment could be approached as a poster advertising this abstract concept.
6. The final design should be aesthetically pleasing.
7. Color corrections should be made so that all images look as though they belong together. They should “flow.”
8. All images should have “refined edges” and can be “feather” if desired.
9. Must incorporate at least 1 color splash image.
10. Create artist reflection at the end.
